Hi Josh,

I was hoping to make the 25th at the Polacca field office would work for everybody. That would save us some travel time to Flagstaff.

Hopefully that still works for everybody. Let me know if folks have a preference for morning or afternoon. Thanks!

Emmanuelle

Thank you Emmanuelle. Welcome Jeffrey.

HUC is happy to host a HAMP update and coordination meeting in Flagstaff Tuesday March 24th. Alternatively, if it's more convenient to all and Jeffrey would like a site visit IHS can host a meeting beginning in Polacca Field Office Wednesday March 25th?

Hopi Water Resources Department Manager Jarrett Calnimptewa is copied and invited to participate.

We would also like to schedule an early February HAMP update phone call at your convenience?

Kwa kwah,

TIM

Subject: HAMP meeting with EPA

Hello Tim, Carroll, Josh,

I hope all is going well and progress is being made on the design of the HAMP. As you know we've had some changes in our office and Jeffery has been working directly with public water systems on the Hopi for the last ~ 10 months. We've now finalized that assignment on a more permanent basis. As a part of the Hopi oversight role, Jeffery is going to take over as the primary EPA point of contact on the HAMP.

Jeffery and I are planning a trip to visit some of the Hopi water systems and would like to meet with you folks to discuss the HAMP. I wanted to check your availability for a meeting the week of March 23-27th, or the weeks of April 13th or April 20th. The main purpose of the meeting would be to introduce you all to Jeffery and give him a better overview of the project, its current status and ways EPA can help support the HUC and IHS to meet the project milestones. We'd be happy to meet in Flagstaff or at a location that works best for you.

Thanks and we look forward to meeting with you.

Emmanuelle
